

VERPET S.r.o.
CHRÁNĚNÁ DÍLNA

VERPET S.R.O. PIONEERING EXCELLENCE

Empowering Connections, Enabling Opportunities

INTRODUCTION

- **Founded in 2011**- Emerged as a pivotal force in wire harnessing and cable assembly.
- **Industry Focus** - Key player in cooperative activities, particularly within the automotive sector.
- **Championing Inclusivity** - Since 2013, we have been proud advocates of inclusivity, actively employing individuals with medical disabilities. This commitment not only reflects our dedication to social responsibility but also brings a richness of talent and perspectives to our team.
- **Evolution and Dedication** - As we continue to evolve, Verpet remains steadfast in delivering high-quality solutions and driving positive change within the industry.

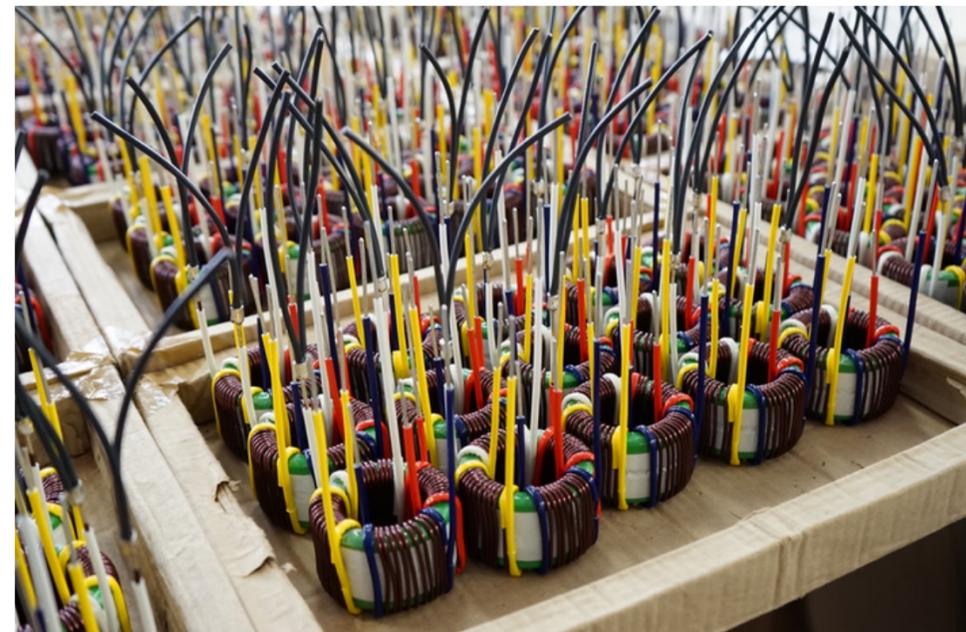

VERPET'S WORKSHOPS: A HUB OF EXCELLENCE

- Three Strategic Locations: Operating in Hradec Králové, Náchod, and Hronov, our three workshops offer a combined capacity of 150 people.
- ISO 9001 Certification: We are dedicated to excellence, exemplified by our ISO 9001 certification. It guides our activities, ensuring a commitment to top-tier solutions and services.

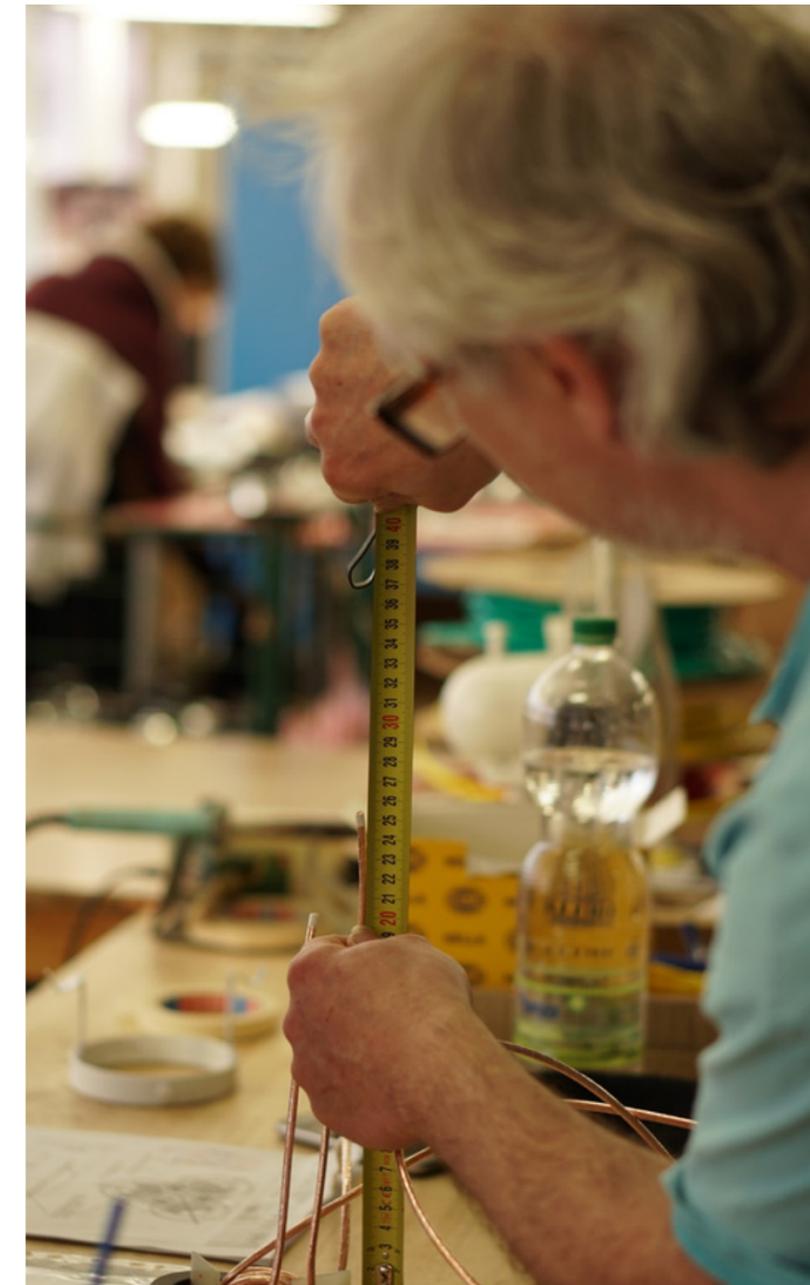

SERVICES OVERVIEW

- Cable harnesses
- Toroidal transformers
- Coils
- Chokes - electrical components are our forte
- Micro-soldering
- Tinning,
- Winding machines,
- Fitting connections - we bring precision to every step of production

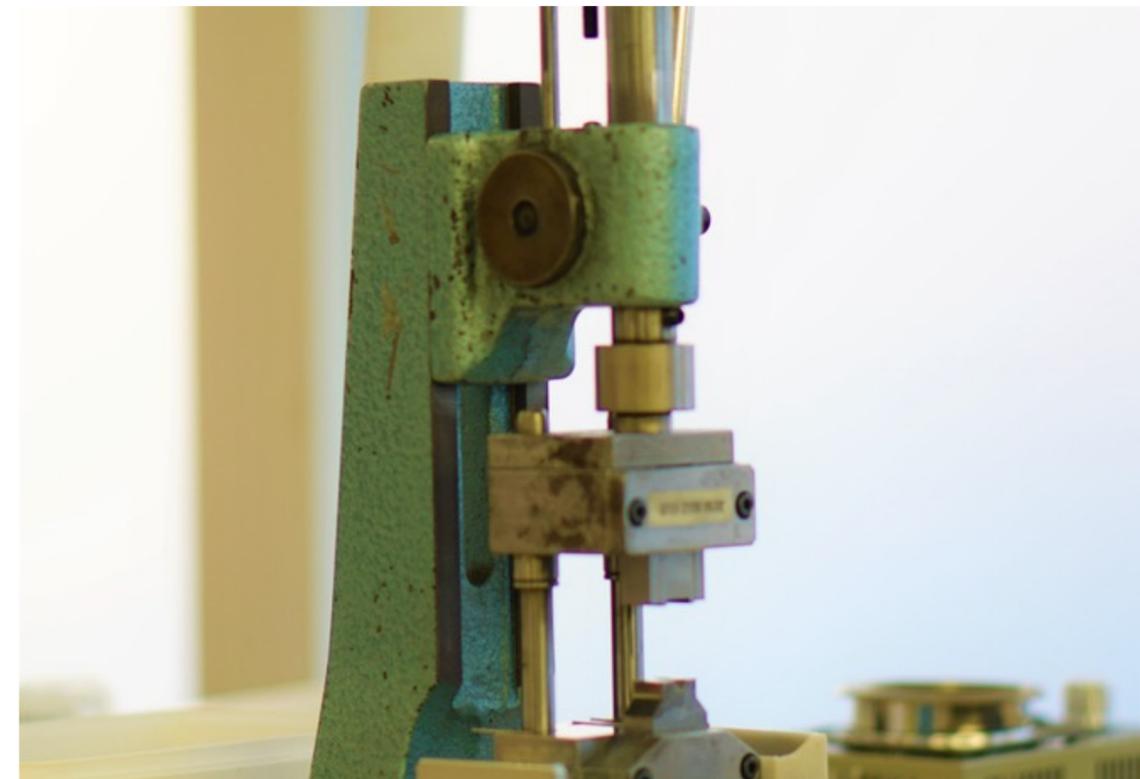

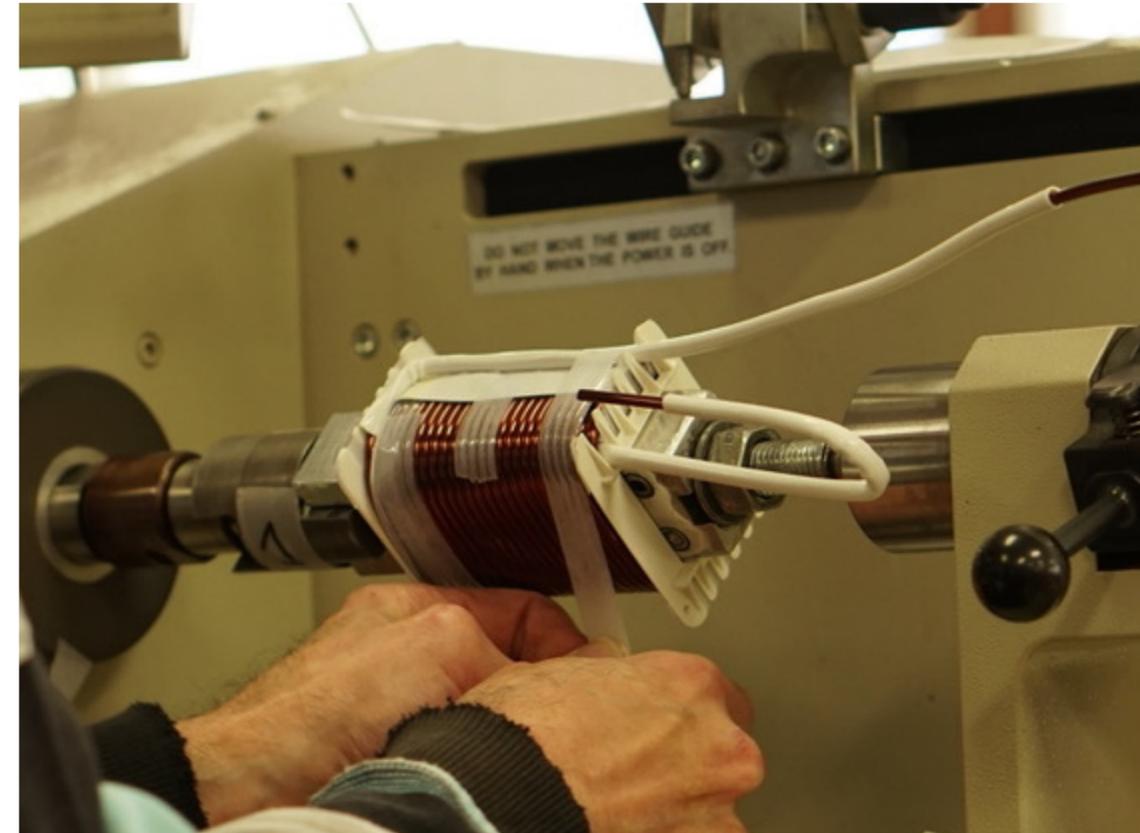

MANUAL PROCESSING WORKSHOPS

- In protected workshops, manual processing includes plucking, trimming, fine-brushing, and more
- Adaptability to client's production needs, using tools like height meters and sliding gauges

MACHINING EXCELLENCE

- **Precision Machining:** Every operation, from preparatory tasks to finishing touches, is executed with unparalleled precision. We leverage advanced tools such as drills, grinders, and specialized small tools to ensure the highest level of accuracy in our machining processes.
- **Specialized Services:** Our expertise extends to specialized services such as winding of electric motor parts. This specialization ensures that components are crafted with the precision required for optimal performance and reliability.
- **Quality Finishing:** We prioritize meticulous deburring processes to eliminate rough edges and imperfections in the final product. This commitment to quality finishing ensures that our products meet the highest standards of excellence.

PAINTING AND SURFACE PREPARATION

- Utilize pressure guns for precision coating.
- Specialized painting boxes for controlled application.
- Enhances both aesthetic appeal and product durability.
- Thorough sanding for a smooth and uniform surface.
- Rigorous degreasing processes for optimal adhesion.
- Application of intermediate coats for enhanced durability.
- Precise sandblasting for intricate components (Max. 50x50cm).
- Meticulous removal of impurities to prepare surfaces for subsequent production stages.

ASSEMBLY & PACKAGING

- **Seamless Assembly**
 - Meticulous crafting from components to complex systems.
 - Precision-driven assembly lines ensuring perfection.
- **Regulatory-Compliant Packaging**
 - Strict adherence to industry regulations.
 - Protective packaging for simple components to intricate parts.
- **Unified Commitment to Quality**
 - Assembly and packaging working hand in hand.
 - A journey of precision, quality, and assurance that defines for your company.

QUALITY SYSTEM & CERTIFICATES

- **ISO 9001 Certification:** Achieved ISO 9001 certification, underscoring our unwavering commitment to implementing and maintaining robust quality management systems.
- **Customer-Centric Approach:** Prioritize customer satisfaction through a dedicated focus on understanding and meeting customer needs, ensuring our products and services consistently exceed expectations.
- **Continuous Improvement:** Foster a culture of continuous improvement, regularly reviewing and enhancing processes to optimize efficiency, minimize errors, and deliver the highest quality products.

**ISO 9001
CERTIFIED**
